THE MAIN BUILDING AND CHAPEL

The Main Building contains the College offices, study halls, class-rooms, dormitories, service locker rooms, and lavatories.

In the Chapel Building are the Chapel proper, the priests' oratory, the dining rooms, and service rooms. The dining rooms are airy, roomy, and well lighted, easily seating 600 persons at one time.

CHAPEL AND MAIN BUILDING

THE GROUNDS

The College lawns, parks, groves, and campus are a surprise to the visitor. It would be difficult to estimate financially the amount of labor and care that has been expended in past years in their development. Acres of green are dotted here and there with beds of blooming exotics, shrubs and trees; while the groves, left to be as nature intended them to be, are full of many species of wild flowers and birds. Stretching away to the southward is an orchard of over seven hundred fruit trees—a veritable riot of bloom and fragrance in the month of May.

FLAG-RAISING

THE COLLEGE CHAPEL

The College Chapel is used exclusively by the inmates of the institution. It was completed in 1909 at a cost of over \$100,000.00, and is believed to be one of the largest and most beautiful College Chapels in the United States. Due to the generosity of patrons and alumni many a gem of ecclesiastical art is to be found there.

THE ALUMNI HALL AND GYMNASIUM BUILDING

This building was completed and furnished in 1915-16 at a cost of nearly \$150,000.00. It is fireproof throughout and contains, besides the large space devoted to athletics and recreation, the College library and reading rooms, the Music Department, the Science Department and the College Auditorium (Alumni Hall)—a total floor space of over 50,000 square feet.

ALUMNI HALL AND GYMNASIUM BUILDING

ALUMNI HALL

The College Auditorium, known as Alumni Hall, seats 750 persons. The large stage is equipped with splendid scenery, border and spot lights, dimmers, etc., permitting the production of the best theatricals with ease and confidence. Practically every week of the school year the students are assembled to witness the production of musicals, concerts, plays, recitals, and programs presented by some of their number. These entertainments are supplemented by motion picture programs of the best class, a Powers Cameragraph having been installed for this purpose.

VIEWS OF ALUMNI HALL

THE LIBRARY AND READING ROOM

The College Library contains about 11,000 volumes touching every branch of knowledge. The reading room is unusually large and is well lighted; at night by means of reflected or indirect light.

All students are permitted to visit the reading room, but their reading is under the supervision of the librarian. The reading of fiction is prohibited during study hours except under conditions covered by the library rules.

A CORNER IN THE LIBRARY STACK ROOM
READING ROOM

THE SCIENCE LECTURE ROOM AND PHYSICAL LABORATORY

The science facilities of the institution have been greatly improved and augmented during the past three years and amply fulfill all the requirements of the best professional schools. Students acquire fresh and concrete knowledge of the principles of science by working out problems and projects experimentally in the laboratory. The Physical Laboratory has working space and equipment for forty students working at one time.

PHYSICAL LABORATORY
SCIENCE LECTURE ROOM

THE CHEMICAL LABORATORY

The chemical laboratory tables are supplied with gas, water, reagents, and individual lockers for supplies to be used in the experiments. The room is large and there is sufficient space for fifty working at one time. Besides giving the student the necessary credit for the professional schools, the aim of the science courses is to acquaint him with the knowledge that will broaden his view of life and interpret the phenomena about him in his daily life.

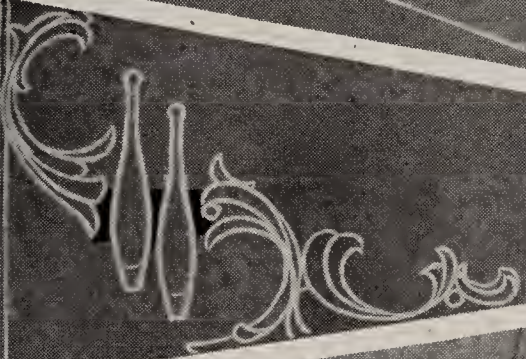

A CORNER IN THE CHEMISTRY STOCK ROOM
CHEMICAL LABORATORY

THE BASKET BALL FLOOR TURNER HALL

The play hall is eighty feet long and fifty feet wide, somewhat larger than the regulation basket ball floor. It is entirely free from obstructions, is twenty feet high, and the walls are lined with cream colored vitrified brick. Baskets are so arranged that two games can be played at the same time.

Turner Hall is used exclusively for gymnastic exercises. It is furnished with rings, parallel bars, horizontal bars, matts, ladders, horses, punching bag, and other devices usually found in rooms of this kind. In addition to this equipment there is also an outdoor gymnasium equipment for use in the spring and fall.

THE BASKET BALL ROOM—TURNER HALL

BATHS

The students have at their disposal in the Gymnasium Building twenty-seven baths, most of which are showers with hot and cold water controlled by means of anti-scald valves. Each bath has built in with it a small dressing booth. The floors of the room are of rubber composition and the walls of the baths themselves are constructed of pink Tennessee marble.

SHOWER BATHS

THE SHOPS, POWER PLANT, AND SERVICE BUILDINGS

“How do you do it?” is the question often asked of the members of the Faculty by visitors, who, after seeing the equipment, inquire about rates. The College not only possesses a living endowment in its professors, working brothers, and students, who receive no salaries, but also a valuable asset in a highly productive farm and garden. Being independent of the market is the constant study. Fresh meat, milk, and butter from our own herds and dairy, fresh bread, pies, and cakes from our own bakery, and the thousands of gallons of preserves, jams, and fruits that are canned in season, and the thousands of bushels of vegetables that are stored away or hilled up in the garden as grandfather did it, are the means of “doing it.” The kitchens, dining rooms, and laundry are in charge of the Sisters of the Precious Blood.

The College also possesses its own power and light plant, repair shops, laundry, and water supply system.

POWER PLANT AND SHOPS

THE CLASS OF 1918

The spirit among the students of St. Joseph's is an easy, democratic, and fraternal one. The boy develops physically and morally in an atmosphere that puts the habits of a gentleman into his heart rather than into his clothes. There are no cliques, and true merit is swiftly recognized. About one-half the graduates of the institution are priests or students for the priesthood.

THE ST. STANISLAS ALTAR SOCIETY

The Society was organized for the purpose of training the students to serve at High Mass and to assist in the sanctuary at other solemn services. Occasional meetings are held during which the significance of the beautiful rubrics of the Church are explained to the acolytes.

THE COLLEGE CHOIR

No student is admitted to the College Choir unless he has attended classes in voice culture for a period of two years. In conformity with the Motu Proprio of Pope Pius X the Choir is thoroughly trained in the rendition of the Gregorian Chant and in the interpretation of the beautiful works of the old masters of Church Music.

THE ST. STANISLAS ALTAR SOCIETY
THE COLLEGE CHOIR

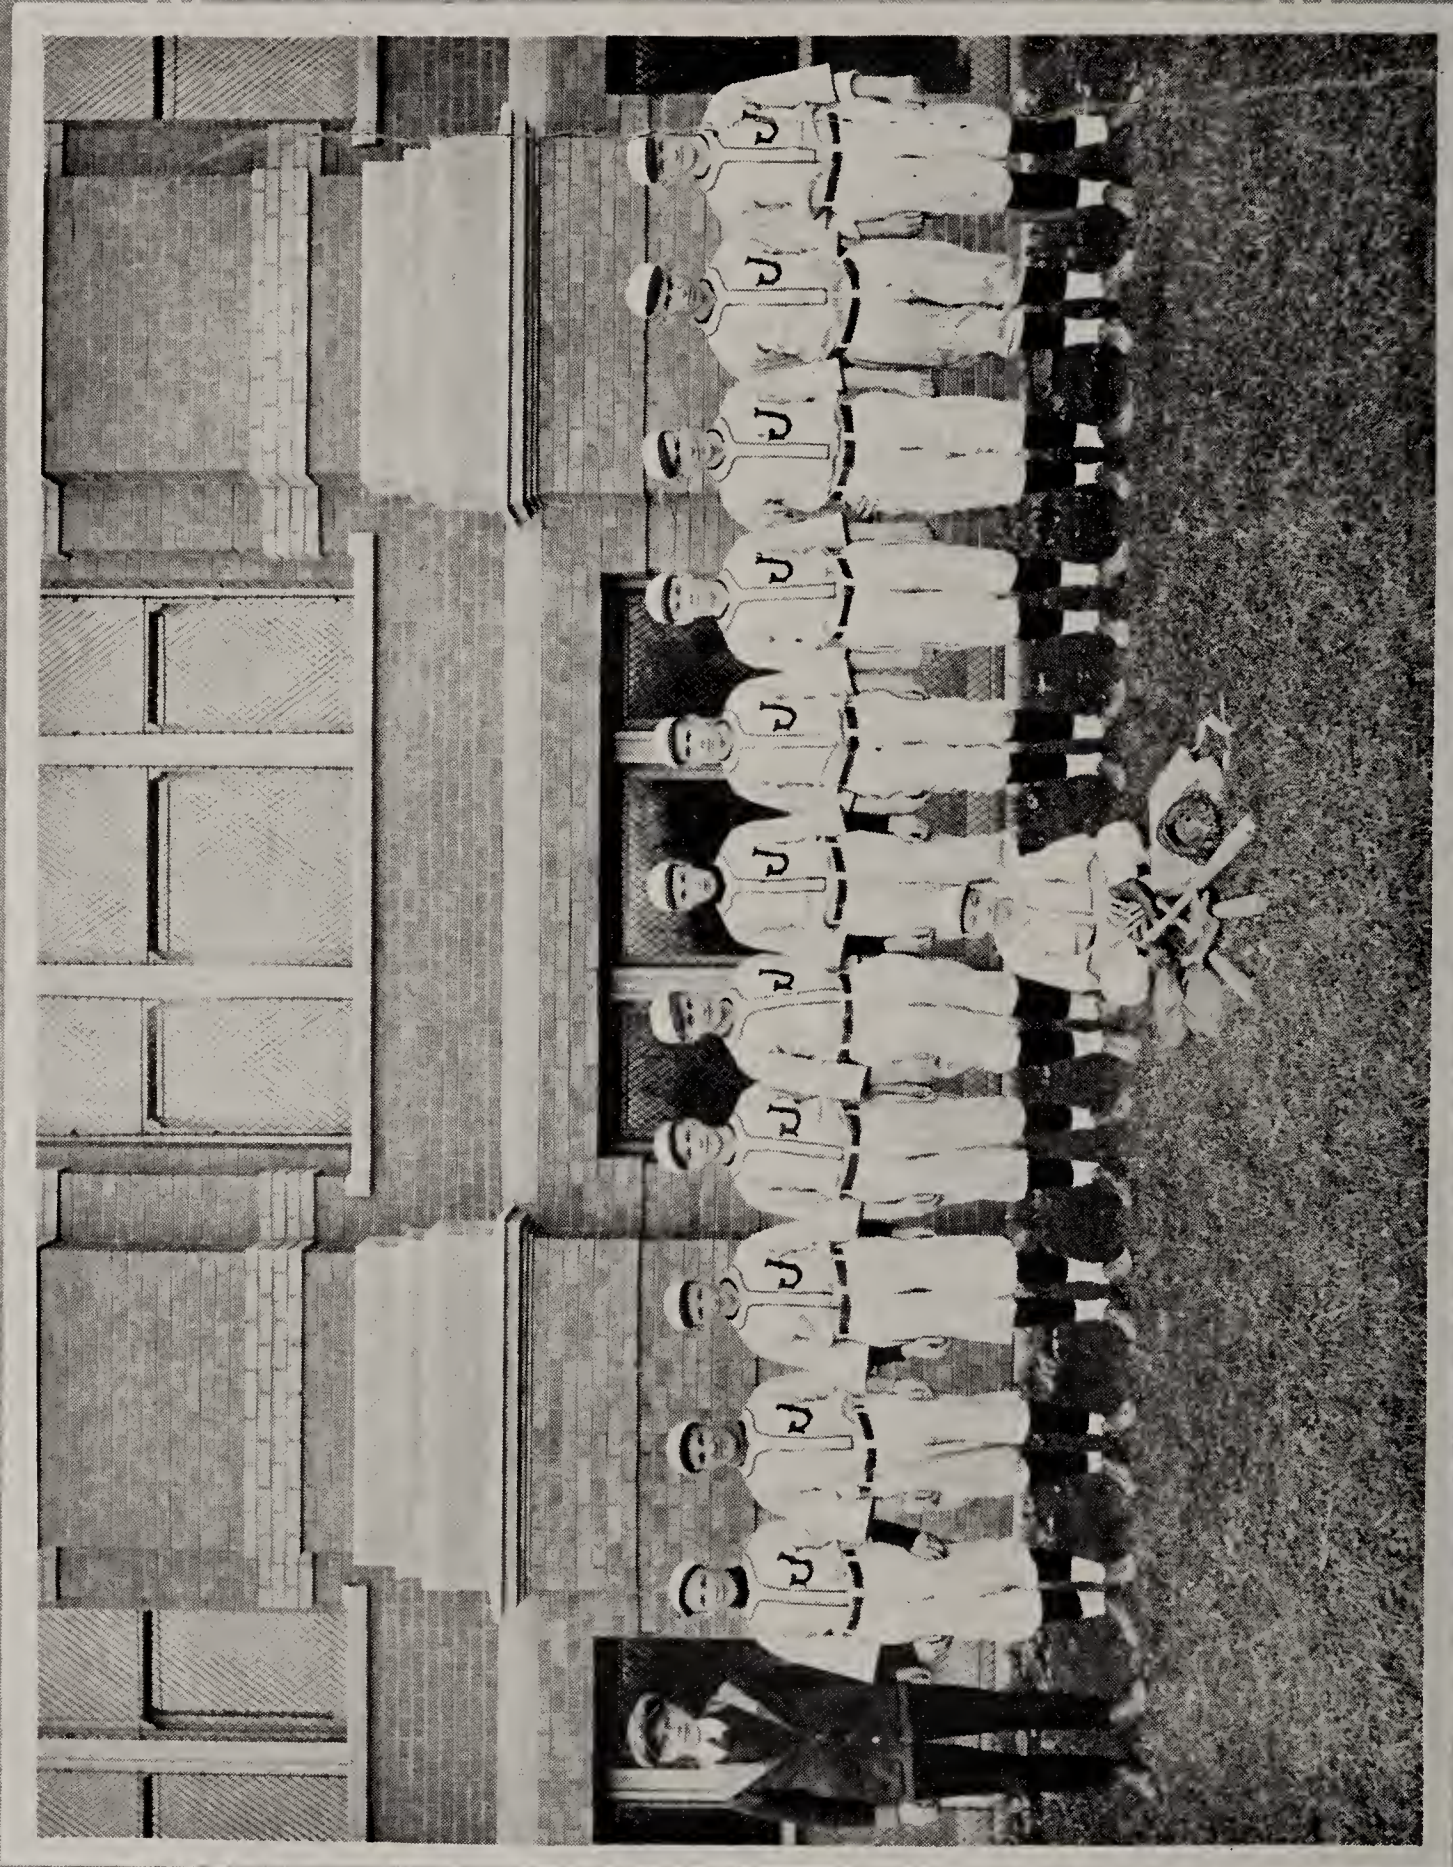

ATHLETICS

The College encourages athletics for the sake of exercise and recreation. No one can deny that athletics evolve and expand the faculties of the body and preserve and promote its health; they train the mind to form quick and correct judgments and habituate it to resourcefulness in emergency; they school the growing boy in forbearance and self-control and practice him in the gentlemanly accomplishments of tact and courtesy.

St. Joseph's properly provides its students with every accommodation and opportunity for reasonable participation in all sorts of approved athletics, as the description and views of the campus, gymnasium, and equipment show. Besides the many inter-hall and inter-class contests, games are also arranged with neighboring institutions. No student is, however, permitted to represent the College in these games unless he has attained a certain proficiency in his class work.

FOOT BALL TEAM

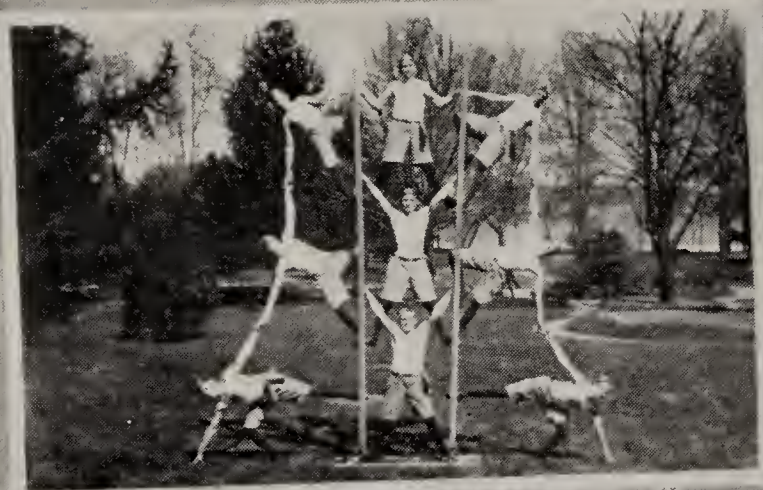

BASE BALL TEAM

BASKET BALL TEAM

THE TURNER SQUAD

There is probably no harder working group of boys than the turners. Day after day they may be found in the gymnasium going through their evolutions, and their annual exhibition is circus day for the inhabitants of Collegeville, young and old alike. For the physical development of the boy there is nothing better, for it is systematic, thorough, and does not overtax the strength of the youth.
